

FORGE & COMPONENTS

DEVELOPPEMENT DE PIECES DE FORGE & FONDERIE

Global logistics solution

We manufacture and dispatch more than two million parts per year which allows us to consolidate shipments from Europe or Asia and optimize costs for all our customers. Depending on the contract, we can finance safety stocks. Our 800 m² logistic platform, based in Toulon-sur-Allier (03) in the middle of France, allows us to meet your needs for inspection, storage, packaging and shipping of finished forging or casting parts.
